

Case Study

Navoi Airport

Over 60 Infinova PTZ and Day/Night High Resolution Cameras Provide Surveillance at Airport for Free Industrial Economic Zone's (FIEZ)

Solution: Infinova V2216 network video management and IP Cameras

Uzbekistan's Navoi Airport Implementing Infinova Surveillance System

As part of a US\$ 63.1 million construction project, Uzbekistan's Navoi Airport is installing Infinova PTZ and Day/Night high resolution cameras to watch over one of Central Asia's newest Free Industrial Economic Zones (FIEZ). The FIEZ is designed to promote a wide range of high-tech and internationally competitive production using modern high-efficiency equipment, technological lines and units, as well as latest innovations. It is located 1.8 km from the cargo terminal of Navoi Airport, where the cameras are located, and connected to international railway routes towards the countries of Europe (via Russia), South Asia (via China), Middle East and the Gulf (via Iran).

"This is a first time use of a professional surveillance system to cover the cargo terminal at Navoi Airport in the free economic zone," affirms Alex Yusupov, (title needed), Global Pro Security, the international wholesale distributor of the equipment. "Our integrator in Uzbekistan, Atlantik Trade, is doing a wonderful job." The Navoi Airport is one of many transportation venues around the world employing Infinova cameras, with a large scope of products it easy for Infinova integrators to recommend exactly the right type of solution for each venue.

Infinova[®]
The Integrator's Manufacturer

According to Yusupov, business entities registered in the FIEZ will enjoy exceptional customs, currency and tax regulations, simplified procedure for entry, stay and obtaining of work permit for non-resident citizens. They will be exempt from paying many taxes.

Infinova®

By helping channel partners provide their customers with complete, affordable, best-in-class, large and small video surveillance solutions, Infinova helps integrators generate more business more profitably. Leveraging a manufacturing process certified to ISO 9001:2000 standards and over 250 engineers with a list of video industry firsts, Infinova channel partners provide their end-users with industry-acknowledged product reliability and technical leadership.

So that Infinova channel partners can create complete solutions, Infinova provides IP surveillance cameras and components, CCTV analog cameras, DVRs and components, camera accessories, monitors, power supplies and fiber optics communications devices. Infinova also has the technical ability and manufacturing flexibility to let integrators propose customized solutions. In addition, Infinova will partner with other manufacturers making other surveillance equipment and software to help its channel partners create turnkey solutions. Contrary to most other companies, Infinova will back-up their partners' products as well as its own to assure both the integrator and its customers that one call – to Infinova only – takes care of everything.

Infinova works diligently to assure its channel partners can provide cost-conscious solutions. With Infinova's hybrid systems, channel partners can propose systems that protect a customer's investment in its already-installed analog surveillance system but that also put them on a dynamic migration pathway to IP systems.

Infinova is lauded for its exceptional maintenance programs. A major highlight is the company's 24-hour advanced replacement policy in which a substitute product is shipped immediately upon notice of a problem.

With such customer focus, Infinova is often referred to as "the integrators' manufacturer."
