

Infinova Promotes to Sales Engineer for South America

Monmouth Junction, NJ – February 5, 2007 - Infinova, a leading manufacturer of complete CCTV security/surveillance and Fiber Optic solutions, has announced the promotion of Rafael Rodriguez to Sales Engineer covering the Andean Region.

Mr. Rodriguez has over 5 years of experience in systems engineering, project management, and sales. Previously, Mr. Rodriguez was Infinova's Applications and Technical Support Engineer covering all of Latin America where he prepared project specifications, customer price quotes and network diagrams. He also provided on-site customer equipment support and installation as well as performed the testing on new equipment. Prior to joining Infinova, he was a project manager at Instaelectric and at T.C.H, both located in Venezuela, where he prepared proposals, agreements and product presentations in addition to providing technical support on networking.

In this position, Mr. Rodriguez will be responsible for service training, project consulting and customer account management. He is fully capable and committed to make every customer's goal his own.

Infinova designs and manufactures a full line analog and digital/IP CCTV products including PTZ dome cameras, fixed cameras and lenses, monitors, DVRs, matrix switchers, controllers and accessories, fiber optics for video, audio and data, and integration management software. Infinova provides consultants, integrators, electrical contractors and installers with engineering design assistance and customized systems.
