

Infinova Grows Technical Support Staff

MONMOUTH JUNCTION, NJ - December 7, 2010 - Infinova today announced that Jeff Hanna has joined the technical support staff at Infinova headquarters in the United States. Hanna is the latest hire to this key Infinova group which provides technical support for Infinova integrators in the Americas, Europe, Middle East, Africa and India.

"We're dedicated to being known as 'the integrator's manufacturer,'" stresses Mark S. Wilson, Infinova vice president, marketing. "As such, we need talented individuals, such as Hanna, who can help our integrators gain more sales more easily. Sometimes, that's as simple as expediting an order while, other times, it may be working with engineering to customize something that the surveillance customer needs to make their system perform."

Most recently, Hanna has been in electronic sales and support. He has a BS degree in electrical and computer engineering from Rowan University.

About Infinova

Infinova makes it possible for IP and analog surveillance cameras and equipment to co-exist and be managed as a single seamless system solution, helping integrators generate more business by being able to say "yes" to a broader scope of projects. Infinova provides megapixel, IP and analog surveillance cameras, including specialized cameras, control room equipment, fiber optic communications and customized systems. The Infinova solution enables end-users to extend the life of their existing analog equipment by having it co-exist with their new IP video equipment. Infinova partners with brand-leader manufacturers to create best-in-class solutions and certifies the functionality of their partners' solutions when integrated with Infinova products. Infinova is acknowledged in the industry for its exceptional customer service programs and is often called "the integrator's manufacturer."
